Police Cam Mini Digital Recorder

Introducing our all new and 100% portable High Resolution H.264 hardware compression video and audio mini Digital Video Recorder (DVR) with micro High resolution colour camera.

This is one touch recording device suitable for Police, Security Guards, Council Workers, Military, Security personnel, Sports commentators, even Paint Ball !! in fact the list of applications for a portable recording device such as this is infinite. Police Cam DVR is available with the Ear Hook camera as pictured or the optional Cap Clip on type.

Portable Mini DVR & Camera

How does it work?

The Digital Recorder and the pinhole camera itself are both remarkably small and lightweight. The DVR is small enough to fit into an upper shirt pocket.

Supplied with a rechargeable lithium battery (additional heavy duty batteries optional) up to 4 hours recording capacity is supported on just one standard battery charge. Internal memory is supported by 2-16GB Micro HD SD card. A 2GB card can store about 90 minutes of constant audio and video recording so a 16GB card can save about 12 hours recording at high resolution. Adjusting the recording quality and speed means longer recording capacity.

The mini 2.8mm pinhole lens camera supplied with the kit is a **CCD sensor** (not CMOS) and the wide-angle 115-degree lens is ideal for any recording situation, especially close up. A high quality audio microphone is built into the camera and all recording is Time & Date stamped for authenticity.

To playback simply use the supplied 2.5" colour TFT LCD monitor however, the DVR can also be interfaced with any PC via USB. Recordings from the camera can be saved to PC for future reference or evidence required.

What are some of the features?

HD DVR & Camera is supplied with;

- 1/4" colour CCD Sensor (ideal even in low light)
- H.264 Video Compression (much better than standard MPEG and no video interlacing)
- 115 degree wide camera lens angle
- 2.5 inch colour TFT LCD monitor built in
- Can take still JPEG Images and video
- Weatherproof
- One Touch recording
- Supports up to 16GB Micro HD SD card
- Supplied with 3.7V/2300mAh with up to 4 hours constant recording on one charge
- Highly sensitive built in audio Microphone
- Recording protect function (password)
- Real time video recording
- AV Terminal Mini jack ($\phi=2.5\text{mm}$)
- USB 2.0
- Multi Function OSD (On Screen Display) Menu

Specifications

Model No.	PR90C-A (Ear Hook Type)	PR90C-B (Cap Clip Type)
Sensor Resolution	1/4" CCD Sensor	
Lens	2.8mm pinhole lens	
View Angle	115 Degrees	
Video Compression	H.264	
Still Images Format	JPEG (720X480, 640X480)
