## Smoke Detector Camera & Motion Activated Spy Cam Recorder

This is the latest design 12V DC medium or high resolution covert colour CCD Smoke Detector Camera with a clear wide angle side view designed for indoor room or office surveillance. High resolution **520 TV Lines and low lux ideal for low light as well**, the image quality is very high and perfect for any covert security application. This fully functional Smoke Detector Camera with a **built in DVR and internal memory up to 32GB**. Really looks the part. It is very discreet and high effective with recycle recording when the internal SD card is full. Read more below

This Smoke Detector Spy Security Camera Recorder is not your average hidden camera. This is an "all in one" high resolution 520 TVL Sony CCD colour pinhole camera (excellent in low light as well) with a built in Digital Video Recorder (DVR) plus a super high gain pinhole microphone for crystal clear audio recording in sync with video. Remember this is a fully functional smoke detector and spy security camera with motion activated or constant recording, so it won't look out of place anywhere indoors.

The pinhole CCD camera provides a perfect 100-degree horizontal wide view and therefore ideal for any room or office large or small. The view is across the room and not straight down.

The concealed camera will be able to see and discreetly record everything and at any time there is movement within the room, even up to 12m away. During the easy setup (connect to any TV to see what the camera can see) the camera can be entered into several recording modes. For instance, when motion is detected, the recording duration, speed and quality are set using the supplied wireless remote control. Once the spy cam detects motion, we may choose to record video and audio in real time (can be slower to conserve SD card memory) and at high resolution.

Again we can set high, medium and low. However, once motion is detected, for how many seconds would you like the detector to record? Now that could be 10 seconds, 15, 20, 30 or longer. If motion continues longer than the pre-set time, it will continue to record until motion stops. Simple as that! At high-resolution real time recording, the Smoke Detector DVR will use about **1GB/40min of activity**.

Program the camera to STOP recording when the SD card is full or LOOP RECYCLE recording meaning it will auto over write from the earliest date when full. In loop recording mode the SD card will record over itself time and time again until you say stop. Obviously the larger the SD card, the longer the recording capacity before it overwrites.

## Features

- Fully Functional Smoke Detector
- High Quality 540 TVL Full Colour SONY CCD Camera
- Built-In DVR w/ max 32Gb SD Card Memory support
- 0.1 Lox Low Light Camera
- Remote Control for "one touch" operation
- Motion Activated
- Ideal for covert surveillance
- Find out what's going on when you're not around
- Increase home & office security
- Capture hidden camera video footage in extreme low light situations
- High quality SONY CCD image sensor
- Built-in Digital Video Recorder (DVR) for easy recording
- Removable SD card for hours of video & easy viewing
- No additional software needed to view videos on your PC
- Needs To Be Connected To AC Power

## Specifications

Type: Colour CCD Camera Pick-Up

Device: Sony CCD Image Sensor

Picture Elements: EIA/NTSC: 512 H x 492 V - CCIR/PAL: 512 H x 582 V

Horizontal Resolution: 520 TVL

Minimum Illumination: 0.1 Lux

Horizontal Sync.

Frequency: EIA/NTSC: 15.734 KHZ - CCIR/PAL: 15.625 KHZ

Vertical Frequency: EIA/NTSC: 19.0699 MHZ - CCiR/PAL: 18.9375 MHZ

Function: Alarm Output

Lens: 3.7mm Pinhole Lens

Video Output: 1Vp-p, 75 Ohms Gamma: .045

Power Supply: DC12V

Power Consumption: 150 mA

Storage Temperature: -30C ~ 60C

Operation Temperature: -10C ~ 45C
